**Question No : 2**

A customer states that their backup failed recently due to a media error. The backup used save-while-active and could not be restarted. Which of the following will eliminate backups ending due to device or media errors?

- A. Use virtual tape for save-while-active backup \*
- B. Use only new media for save-while-active backup
- C. Use media verify option for save-while-active backup
- D. Use a higher capacity tape library with additional media

**Answer: B**

**Question No : 3**

Which of the following requires the use of Integrated Virtualization Manager to manage IBM i partitions?

- A. Power 730
- B. Power 740
- C. Power 770
- D. PS701 Power Blade

**Answer: D**
