Exam 70-672

Designing and Providing Microsoft Volume Licensing Solutions to Large Organizations

Version: 44.1

[Total Questions: 126]

Topic 1, Woodgrove Bank, Scenario

Company Background

Corporate Information

Woodgrove Bank is a global investment firm.

During the past three years, the bank has grown rapidly and expects to continue growing.

Physical Locations

Woodgrove Bank has a main office in New York and branch offices in Paris and Dublin.

The number of employees for each office is shown in the following table.

Office	Employees
New York	2,000
Paris	200
Dublin	112

Each office has an IT manager. Existing Environment

Existing Licensing Solution

Woodgrove Bank purchases licenses through one Enterprise enrollment. The IT manager at each office makes the purchasing decisions for his office.

Existing IT Environment

All desktops run Windows 7 Professional and Microsoft Office Professional Plus 2010.

The number of licenses that the bank has is shown in the following table.

License	Number
Office Professional Plus	2,200
Windows 7 Professional OEM	2,200
Microsoft SQL Server 2008 R2 CAL	2,200
Core CAL Suite	2,200
Windows Server 2008 R2 Standard	18
Microsoft Exchange Server 2010 Enterprise	6
Microsoft SQL Server 2008 R2 Enterprise	4
Microsoft SharePoint Server 2010	2

Currently, the hardware resources on all of the servers are underutilized. Business Requirements

Planned Changes

Woodgrove Bank plans to use the latest version of all Microsoft products.

During the next year, the bank will implement Unified Messaging and e-forms.

The bank is evaluating the addition of six new virtual servers. The new virtual servers will be deployed to existing hardware.

Problem Statements

The bank's rapid growth has made it difficult for its IT staff to maintain product fixes and updates on the desktops.

Business Goals

Woodgrove Bank has the following business goals:

- ✍ Minimize licensing costs.
- ✍ Provide redundancy for SQL Server databases.
- ✍ Provide multilingual desktops in the Paris and Dublin offices.
- ✍ Standardize all desktops to use the latest version of the operating system.
- ✍ Facilitate the installation of all desktop operating systems by using a single product key.

Question No : 1 - (Topic 1)

Topic 2, Northwind Traders, Scenario

Company Background

Corporate Information

Northwind Traders sells clothing worldwide. The company has 2,000 sales representatives.

Physical Locations

Northwind Traders has a main office in Finland and 80 branch offices across Europe.

Existing Environment

Existing Licensing Solution

Northwind Traders has an Open License agreement that covers the following:

- ✍ Eight hundred Microsoft Office Professional Plus licenses
- ✍ Eight hundred Microsoft Windows Upgrade licenses that include Software Assurance
- ✍ Twenty Microsoft SQL Server Enterprise licenses without Software Assurance

The company purchased the software licenses one year ago.

Existing IT Environment

Northwind Traders has 600 desktops in the main office. The desktops run the current versions of Windows and Office Professional Plus. There are no plans to upgrade the software on these desktops.

Each sales representative has a portable computer.

The company has 40 servers in the main office and one server in each branch office. All of the servers run Windows Server 2003 Standard Edition.

Business Requirements

Business Requirements

Planned Changes

Northwind Traders plans to remove all of the servers from the branch offices. Twenty new servers will be deployed to the datacenter at the main office. The 20 servers will be used to host 80 virtual machines that run Windows Server Standard. Twenty of the virtual machines will have SQL Server Enterprise installed.

Business Goals

Northwind Traders has the following business goals:

- ✍ Eliminate the need to renew a license agreement.
- ✍ Reduce the use of energy through server consolidation.

 Secure the company data on the portable computers in case of theft.

Question No : 12 - (Topic 2)

You need to recommend a solution to Northwind Traders for downloading volume license media. Which solution should you recommend?

- A. Access the explore.ms Web site
- B. Access the LicenseWise Web site
- C. Use Microsoft Volume Licensing Fulfillment User Guide
- D. Access the Microsoft Volume Licensing Service Center Web site

Answer: D

Question No : 13 - (Topic 2)

You need to recommend a licensing solution for the planned branch office servers. Your solution must minimize costs. Which solution should you recommend?

- A. 20 Windows Server Enterprise licenses
- B. 60 Windows Server Enterprise licenses
- C. 80 Windows Server Enterprise licenses
- D. 100 Windows Server Standard licenses

Answer: A

Question No : 14 - (Topic 2)

You need to identify which Software Assurance rights that continue to be available after Software Assurance expires. What should you choose?

- A. New Version Rights, eLearning, Multilingual User Interface (MUI)
- B. New Version Rights, Subsystem for Unix-Based Applications (SUA), Extended Lifecycle Hotfix Support
- C. BitLocker Drive Encryption, Four Local Virtual Machines, Extended Lifecycle Hotfix

Support

D. BitLocker Drive Encryption, Four Local Virtual Machines, Multilingual User Interface (MUI)

Answer: D

Question No : 15 - (Topic 2)

You need to recommend a solution to support the company business goals for server consolidation. What solution should you recommend?

- A.** Deploy Windows Server 2008 with Hyper-V
- B.** Deploy Microsoft Desktop Optimization Pack
- C.** Deploy Microsoft System Center Configuration Manager
- D.** Implement Windows Vista Enterprise Centralized Desktop

Answer: A

Question No : 16 - (Topic 2)
