Collaborative Lifecycle Management V4

Version: 6.0

[Total Questions: 60]

Question No : 1

Business intelligence and analytics are the cornerstone of the CLM solution. What makes CLM unique in this area? (Choose three.)

- A.** Rational Reporting for Development Intelligence (RRDI) is an integrated part of CLM and is not a separate solution or a separate purchase.
- B.** You can choose to turn on data warehouse and use a more traditional flat file system.
- C.** The data warehouse, which stores both current and historical data, is at the core of the Jazz Team Server and captures and reports on every transaction.
- D.** CLM Dashboards can now incorporate any RRDI reports, providing an even richer reporting experience across all of the CLM solutions, including RQM, RTC, and RRC.

Answer: A,C,D

Question No : 2

What are three good reasons for a project team to use Rational Software Architect Design Manager to assist in the process of reviewing and approving solution designs? (Choose three.)

- A.** It allows developers and designers to each update the relevant sections of a model at given points in the project lifecycle and according to a defined schedule.
- B.** It allows reviewers to annotate and make comments on any of the elements in a design model.
- C.** It allows stakeholders to create links from a solution design to specific requirements.
- D.** It allows a team of architects to work concurrently on a solution design by locking or reserving particular sections.
- E.** It allows a team of reviewers and architects to have an open discussion displayed next to the solution designs with annotations over the document.

Answer: B,C,E

Question No : 3
