- A. exchange.bravo.com needs to be configured in the RAT
- B. exchange.bravo.com needs to be configured on the RELAYLIST
- C. An SMTP route needs to be configured for exchange.inside.com
- **D.** The mail server needs to point to a private listener.
- E. exchange.bravo.com needs to be removed from the SUSPECTLIST

Answer: B

Question No: 6

Which of the following filters can only be applied to outbound messages?

- A. Anti-Virus
- B. DLP
- C. Outbreak
- D. Anti-Spam

Answer: B

Question No:7

Which of the following parameters are used by the Anti-Spam engine? (Choose three.)

- **A.** The number of recipients in the RCPT TO list.
- **B.** Analysis of image content using optical character recognition
- **C.** The characteristics of the message (random dots, multiple colors)
- **D.** The reputation of URLs in the message
- **E.** The sending mail domains reputation

Answer: C,D,E

Question No:8

Which one of the following cannot be performed on the M-Series, when using it to support a C-Series?

- A. Centralized message tracking
- B. Centralized spam quarantining
- C. Centralized Configuration Management
- D. Centralized Reporting

Answer: A

Question No:9

You have established connectivity to a factory default C-160 through the CLI, What command will allow you to change an interfaces speed and duplex?

- A. ifconfig
- B. interfaceconfig
- C. etherconfig
- D. mediaccnfig

Answer: C

Question No: 10

By default, the outgoing mail will be scanned by which one of the following?

- A. Anti-Spam
- **B.** Anti-Virus
- C. Outbreak Filters
- D. Reputation Filters

Answer: B

Question No: 11

Refer to the wizard screenshot.

In the system setup wizard, when configuring the Data 1 interface to accept mail from the internet, which of the following will be displayed in the SMTP banner?

- A. Destination
- B. Domain
- C. Fully Qualified Hostname
- D. IP address

Answer: C

Question No: 12

An organization has a single mail domain; exchange.bravo.com. Within this domain are several departments finance, accounting etc. Alan and Brian are in finance. Alice and Brenda are in accounting. You need to suggest a method for applying mail policies to members of finance that are different than members of accounting. What is the best solution?

- **A.** On the C-Series, create individual mail policies for each department and enter their mailbox addresses into their corresponding department policy.
- **B.** Move the members of accounting onto a different mail server; notes.bravo.com. and define its mail domain in the RAT and SMTP route table. Now Alice will have the mailbox alice@notes.bravo.com. Next create a mail policy for accounting that matches on this new domain and applies restrictions for accounting.
- **C.** Define an employee's department membership in a group attribute of LDAP directory. On the C-Series, create individual mail policies for each department that reference group membership through an LDAP group query, and then apply that department's restrictions.
- **D.** On the C-Series, create individual content filters for each department. Create a content dictionary for each department that contains their mailbox addresses. Reference these

dictionaries to determine a match on that department member and then apply the appropriate department restrictions in the action menu.

Answer: C

Question No: 13

When setting up a mail flow policy, two of the choices for connection behavior are "ACCEPT" and "RELAY". Select the following choice that describes the difference between these.

- **A.** ACCEPT will check the "mail from" field against the HAT.
- B. ACCEPT will check the "rcpt to" field against the HAT.
- **C.** ACCEPT will check the "rcpt to" field against the RAT
- **D.** ACCEPT will check the "mail from" field against the RAT.

Answer: C

Question No: 14

A large enterprise customer, whose domain name is csu.edu, needs to create a report on incoming and outgoing mail from either internal domains math.csu.edu or hum.csu.edu. How will you advise them?

- **A.** Configure localized reporting and create scheduled domain reports.
- **B.** Configure localized reporting and create scheduled outgoing senders: domains report.
- **C.** Configure centralized reporting and create scheduled domain reports.
- **D.** Configure localized reporting and create scheduled executive summary report.

Answer: C

Question No: 15

How does a customer report emails that are falsely classified as spam and quarantined by the C-Series appliance? (Choose two.)

A. Send the spam as an attachment in RFC 822 format to spam@access.ironport.com

- B. Send the spam as an attachment in RFC 822 format to ham@access.ironport.com
- **C.** Use the Submission plugin to submit this email back to IronPort.
- D. Open a case for this problem and attach the spam to an RFC 822 format...

Answer: B,D

Question No: 16

Which of the following CLI commands will configure the default route?

- A. setgateway
- B. setdefaultroute
- **C.** ip route 0.0.0.0 0.0.0.0

Answer: A

Question No: 17

Which of the following RAT entries will accept mail for example.com and all of its subdomains? Select two.

- A. example.com
- B. .example.com
- C. *©example.com
- **D.** *©*.example.com

Answer: A,B

Question No: 18

One of the items on the Pre-Install Worksheet is "Create DNS records for default the hostname". Which of the following sections in the work sheet contains this item?

- A. Action Items
- **B.** Contact Information
- C. Current Email Topology
- D. Functionality Desired

Answer: A

Question No: 19

In the IronPort C-Series, which of the following control the SMTP conversation? (Choose two.)

- A. Message Filters
- **B.** Outbreak Filters
- C. Anti-Virus
- D. Content Filters
- E. Host Access Table
- F. Recipient Access Table
- G. IronPort Anti-Spam

Answer: E,F

Question No: 20 DRAG DROP

Match the following report types with their definition.

Answer:
