Question No : 2

A customer wants recommendations on storage for an onsite cloud implementation to simplify management of company data.

Which solution should be recommended?

- A. Platform as a Service (PaaS)
- B. Infrastructure as a Service (IaaS)
- C. Software as a Service (SaaS)
- D. Management as a Service (MaaS)

Answer: C

Question No : 3

A customer desires to implement a VMware HA environment by combining a stretched IBM Spectrum Virtualize cluster configuration with VMware vSphere.

How does this solution limit downtime in the VMware cluster?

- A. VMware vCenter can then be integrated with the IBM Storage Integration Server.
- B. Virtual machines can be nondisruptively migrated with vMotion between two separate data centers.
- C. The IBM Spectrum Virtualize Storage Replication Adapter (SRA) can be used to automate disaster recovery testing.
- D. Compression allows more Virtual Machines to be stored within one VMware datastore.

Answer: A

Question No : 5

Which two IBM storage offerings support OpenStack? (Choose two.)

- A. ProtecTIER
- B. Storwize family
- C. TS3500
- D. FlashSystem 840
- E. XIV

Answer: C,E

Question No : 6

Which type of tape should an IBM sales specialist recommend to an enterprise customer?

- A. SLC
- B. DLT
- C. 3480
- D. LTO

Answer: D
