A. switchshow
B. errshow
C. portstatshow
D. supportsave

Answer: D

Question No : 3

Which commands can you use to review log files and traces on B-Series switches? (Select two.)

A. portlogshow
B. supportshow
C. portstatshow
D. logdownload
E. logsave

Answer: A,B

Question No : 4

Which product enables you to verify the interoperation of switches and connected devices, such as storage arrays, at protocol level?

A. Fabric Manager Server
B. Finisar Fibre Channel (FC) Analyzer
C. SAN Designer
D. Data Center Fabric Manager

Answer: B

Question No : 5

During the verification of logs you observe an attenuation of 10 dB on a trunk port of a B-series 4/64 switch. What is the most probable reason?

A. chromatic dispersion
B. improperly seated cable
C. congested optical fiber
D. modal dispersion

Answer: B

Question No : 6

You need up-to-date information about installed firmware versions and drivers at a customer site where you install new storage arrays and add B-Series SAN switches. Which free utility can assist you?

A. SAN Health
B. Data Center Fabric Manager Professional+
C. Storage Essentials
D. Insight RS Advanced

Answer: A

Question No : 7

Which switches are suited for entry-level environments? (Select two.)

A. HP StorageWorks Converged Network Switch
B. HP StorageWorks SAN Switch 8/40
C. HP StorageWorks SAN Switch 8/24
D. Cisco MDS 9124 Fabric Switch
E. HP StorageWorks 1606 Extension SAN Switch

Answer: C,D

Question No : 8

Which HP product allows you to support multiple traffic classes over a lossless Ethernet fabric?

A. HP StorageWorks 8/80 SAN Switch with PowerPack
B. Cisco MDS9134 Fabric Switch
C. HP StorageWorks 4/256 SAN Director
D. HP StorageWorks 2408 Converged Network Switch

Answer: D

Question No : 9

What is the correct sequence of layers to build a sample container stack?

A. Disk Array, Volume Virtualization System, File System, Application
B. Application, Volume Virtualization System, Disk Array, File System
C. File System, Application, Disk Array, Volume Virtualization System
D. Volume Virtualization System, Application, File System, Disk Array
Answer: A

Question No : 10

What are reasons for protecting data against disasters? (Select two.)

A. manage data growth

B. comply with legal requirements

C. decrease IT expenses

D. secure business critical data

E. deploy new backup technologies

Answer: B,D

Question No : 11

Click the Exhibit button.

Which type of fabric is shown in the exhibit?

A. fat tree

B. cascaded

C. meshed

D. core-edge

Answer: B
